BRUSSELS, Feb. 19.—Little Belgium, the brave, torn by internal political strife at a time when all Europe seethes with unrest, stood united today in mourning the sudden, tragic death of her beloved king, Albert I.

With Belgian Communists already calling a series of demonstrations against Crown Prince Leopold, who will be crowned King Leopold III, on Friday, the little country faced a severe test of that fortitude which gave her eternal fame during the World war.

PA NEW OBSERVES

Dear Pa New:
A day last week when the temperature was little above the freezing point an outdoor enthusiast told me that surely spring had come. For he had heard the persistent singing of a cardinal. Now the song of a cardinal does not mean that our cold days are over, for all this winter I have fed and seen cardinals in the Gaston and Cunningham park districts. The cold weather means nothing to cardinals when they can get food. If this same bird lover had heard the song of a bluebird in February, we might look forward to mild days, for when the bluebird makes his appearance winter cold is on the wane and we have hopes of spring.

OWEN PENFIELD FOX.
C. W. Herman Hess recalled this morning that he was one of a number of New Castle people in Pittsburgh about 15 years ago when the late King Albert I of Belgium made a visit to that city. Mr. Hess has a very vivid impression of the state of the monarch of the Belgians, he said today.

The temperature climbed steadily from 5 above zero Saturday morning to 51 degrees yesterday afternoon, after which it dropped back down to 16 degrees during the night. Cold weather tonight is predicted by the government forecasters.

Yesterday's spring-like weather, the first in many weeks, resulted in large numbers of autos being on the highways. The conditions yesterday were fine for auto touring.

TO ASCEND THRONE IN BELGIUM

Here are Belgium's new rulers, King Leopold and Queen Astrid, who ascend the throne of the little European nation following the death of King Albert, killed in a fall while mountain climbing near Namur. The new king is 32 years old. He married Princess Astrid, of Sweden, in 1926. Inset, the two on their wedding day.

Crown Prince Leopold Trained To Be King

(International News Service)
BRUSSELS, Feb. 19.—Crown Prince Leopold, who on Friday will succeed his father to become Leopold III, king of the Belgians, is a modest, unassuming, serious-minded man of only 32 years.

He will be one of Europe's youngest monarchs, curly-haired, having deep-set eyes, and loving to travel. Leopold still has much of that youthful romanticism with which he wooed Princess Astrid of Sweden in 1926.

Democratic like his father, Leopold went to Stockholm as a commoner might, going about the streets of the Swedish capital unrecognized. At his first appearance at his bride-to-be's home he was not recognized as a royal prince. So democratic was his manner that the household believed he was a member of his own staff.

At the tender age of 13 his father led him to a recruiting station, where he enlisted as a private in the World war. He served until the armistice, by which time he was a sergeant.

He has been trained for the kingship since his birth on Nov. 3, 1901. He received his higher education at (Continued On Page Two)

Gets Orders To Resume Work On Post Office

Orders were received today by George J. Murphy, superintendent of construction for the A. W. Kutsche Company to proceed immediately with the construction of the post office building in the Public Square. Mr. Murphy has already begun operations and has men getting the equipment ready.

The post office has been idle since October, when a controversy arose over the change in building materials from sandstone to limestone. The contractor asked to be permitted to make the change because of difficulties encountered in getting sandstone, and this was permitted.

BOSTON, Feb. 19.—Beaten about the head, apparently murdered, the blood-stained body of Victoria David, 14, was found today in an automobile parking space near her home in the south end.

Victoria disappeared from her home Sunday afternoon. The body was identified by her brother.

Mystery Witness Will Be Heard In Mississippi Trial

Divorced Wife Of Late Dr.

DR. DEAN IS IN
BETTER CONDITION
(International News Service)
GREENWOOD, Miss., Feb. 19.—A mystery witness who professes to have "mighty good evidence for the defense" was the center of interest today as the late Dr. J. Preston Kennedy's divorced wife prepared to resume her testimony in the murder trial of Dr. Sara Ruth Dean.

The identity of the new witness was not disclosed. The exact nature of what he has to tell is obscure, but the anonymous letter he wrote from Jackson, Miss., to Defense Attorney A. F. Gardiner so impressed the lawyer that he inserted a classified advertisement in a New Orleans newspaper asking that the man get in touch with him at once by long distance telephone.

Read Love Letters
The third week of the trial opens with Dr. Dean apparently in much better physical condition, in spite of the ordeal to which the state subjected her by reading a new series of love letters she wrote the brilliant young surgeon she is accused of poisoning.

"My Darling: You are, you know, You were so dear to call me. Why, I wanted to start right out and walk to you in regular 'Eliza crossing the ice' fashion."

"I miss you so . . . all the nice things I have and see and hear I want to share with you. Do you know that I love you? I am yours, Ruth."

This letter, it was testified, was found by Mrs. Bessie Berry Kennedy, divorced wife of the deceased physician, in a desk in Preston's office.

ICE VERY QUICKLY

(International News Service)
PHILADELPHIA, Feb. 19.—Five boys between the age of six and 10 years lost their lives in this section Sunday as ice on streams and creeks melted under a warm sun, a check-up revealed today.

The youngest victim, George Matthes, six, died in a vain effort to rescue his companions, two brothers, Norman and William Shinn, both 7, to whom he was related. The boys all lived at Morrisville.

The trio died beneath the ice on the "old canal", which parallels the Delaware river at Morrisville. George disappeared when he dived into the hole in the ice which opened beneath the weight of the two brothers.

The other two victims were Anthony Di Pietro, 10, and his brother Albert, 9, of West Berlin, N. J. They were drowned in Camden Park lake while skating.

CALLS FOR BOND
ISSUE, \$590,000

County Commissioners this morning received from the Public Works Administration, copies of the contract which they are expected to sign in order to secure \$590,000 from the government with which to erect a new court house.

The contract differs from that which was expected when the application for the loan was made, in that it provides for the start that interest on a bond issue, and provisions for retirement of principal must be paid from funds raised by taxation. Under the original proposition it was expected that the "grant" which is to be made, would provide care of these costs for several years.

To Give Thirty Per Cent
The contract provides that the borrower will sell and the government will buy \$590,000 principal amount of bonds, issued in \$1000 denominations, and bearing four per cent interest. In addition the government will give the county thirty per cent of the cost of material and labor in an amount not to exceed \$768,000, the estimated cost of the court house.

The bonds are to be dated Feb. 1, 1934, interest to be payable semi-annually, and certain amounts of the principal to maturity. The first bonds, in the sum of \$29,000 are to mature on February 1, 1935.

Swick Is Protesting Order For Limestone Use On Post Office

By ARTHUR C. WIMER
Special Washington Correspondent,
New Castle News
WASHINGTON, Feb. 19.—Representative Dr. Howard Swick is meeting this afternoon with newly appointed public construction officials to urge countermanning of the order issued last week by Assistant Secretary of Treasury Roberts authorizing completion of the New Castle post office with limestone instead of sandstone.

Just before the public building program was removed from his jurisdiction and placed under Admiral Peoples last Friday Assistant Secretary Roberts authorized A. W. Kutsche to finish the post office with limestone. Admiral Peoples is ill today, Congressman Swick arranged to meet his first assistant, W. E. Reynolds at 2:30 o'clock to urge that the Roberts limestone order be rescinded. The congressman was optimistic before departing for the conference.

Men's Mass Meeting Makes Formal Protest On Indecent Shows

Indecent shows, suggestive motion pictures, and pornographic magazines were severely condemned Sunday afternoon, February 18, when 500 men assembled in the First Presbyterian church at the call of the Ministerial association. The meeting was a public protest against such things and resulted in a set of resolutions being passed scoring the practices mentioned and pledging support to the elected officers of the community.

Four speakers were heard, three ministers and a layman, each of them taking a different angle of them taking a different angle of the general subject. Rev. C. H. Heaton, pastor of the First Baptist church, was the first speaker and had as his subject, "Some Fundamental Principles of Morality in Our Social Life."

"There is a standard of right and wrong," said he, "just as there are standards of weights and measures. There is a conspiracy in the world to reward virtue and punish sin."

Other Speakers.
Rev. C. B. Winger, pastor of the Central Presbyterian church was the second speaker and had as his subject, "Some Fundamental Principles of Morality in Our Social Life."

The letter, written by Secretary Duncan McCallum stated that the Department of Property and Supplies must have the complete data on the two projects by Tuesday, February 20 when the department holds a meeting on armory projects. This information has been requested by the PWA authorities in Washington, D. C.

The amount allocated for the New Castle armory is \$55,000, and will be only the first unit of what will some day be a complete armory plant. For Ellwood City \$75,000 is allocated presumably for the complete artillery armory layout.

All information requested has been sent to Harrisburg by Senator Weingartner by wire and it is anticipated that definite announcement concerning the absolute approval of the projects will be made sometime soon.

Mrs. Jesse T. Beall, Fairfield avenue, who has been ill at her home for some time, is reported to be improving.

R. L. Meermans, general secretary of the Y. M. C. A., was still confined to his home on Winter avenue by illness today.

Fighting flared up at two points in Vienna during the night. Several were reported injured.

Effective Tuesday morning, the Butler road, route 422, will be closed to through traffic between New Castle and Butler, Highway Superintendent H. W. Lightner stated today, as work is started on raising the Rose Point bridge, which will be (Continued On Page Two)

WASHINGTON, Feb. 19.—Inaugurating the greatest peace time job in the history of the army air corps, America's military aces today started flying the nation's air mail.

Undaunted by the deaths of the three officers of preliminary flights in the west and the forced landings last night of two others, approximately 165 of the army's crack sky-riders gathered at the air fields awaiting the "zero hour" that sent them into the air with love letters, business letters, greetings and other correspondence and packages which comprise the air mail.

Takes Over Job.
Although cancellation of the domestic air mail contracts does not become effective until midnight tonight, the army started flying the mails this afternoon, taking over all runs which terminate after midnight.

The first army plane to take off with air mail, an observation machine attached to the 37th squadron at Newark, N. J., is on the Newark to Miami, Fla., route in the so-called eastern zone. Its schedule is: Leave Newark, 3:45 p. m. (EST) for Miami via Washington, Richmond, Va., and Charleston, S. C.; arrive at Miami, 5:45 a. m. the next day.

Each year I laugh the groundhog off and say his stuff is bunk, and that his prophecies should belong with other junk. He sees his shadow and he hikes for woodlands once again, for six more weeks to hibernate and usually, then, the winter hits us on the nose and thwarts on the chin, and symphonies of bitter winds and icy days begin. But yet I laugh and call it fluff, and winter proves he's right and I must feed the furnace maw from early morn till right, ah me, some day I may believe the groundhog's ancient lore and take his statement every year, the weather's twenty-four.

PENNSYLVANIA MOUNTAINS OFFER BIG TEST

Army Flyers To Have Hard Task

Snow Storm Over State Makes Conditions Difficult For New Flyers

ARMY STARTS AIR MAIL TASK TONIGHT

(International News Service)
PITTSBURGH, Feb. 19.—The Rocky Ridges of Pennsylvania's mountains regarded by airplane pilots as "aviation's graveyard" offered a supreme test to the corps of army fliers who started carrying the mails for Uncle Sam today.

The lofty peaks of the Alleghenys which are bad enough to scale under normal weather conditions were partially concealed today by a snow-storm, although not too severe the falling flakes make flying hazardous. Weather forecasters expected the fall to continue for several hours.

Mother Nature Takes Hand
Such was the hand dealt by Mother Nature to the army pilots thrust into a new field of activity by President Roosevelt's cancellation of all air mail contracts.

Since the cancellation, army officers, members of the air corps, and officials of privately-owned airlines have been at odds as to the ability of the army pilots to successfully carry out the mail transportation assignment. Many argued the planes were not adequately equipped to withstand the treacherous weather conditions they would experience.

Without warning, the Allegheny aided by the elements offer a test for the new system at the outset. Should the storm continue or increase in ferocity, blind flying undoubtedly will be necessary.

The storm also offered a threat to the T. W. A. liner, piloted by Eddie Rickenbacker, seeking a transcontinental commercial flying record.

CONTRACT HERE FOR SIGNATURE

From that time up until 1945 a similar amount of \$29,000 is to mature on February 1 of each year. From 1945 to 1954, \$30,000 worth of bonds are to mature each year on February 1. As stated, interest is to be paid annually on the remaining unpaid portion of the bonds, until the whole are repaid.

For the repayment of bonds and interest a tax is to be levied on the assessed valuation of the county.

The bonds are to be issued from time to time as needed or will be purchased all at one time, at the option of the government. The bonds can be registered or not as desired. The county commissioners are expected to pass a resolution, providing for the acceptance of the contract and provisions for re-payment of the loans, or bonds.

THIEVES STOLE HOUSE PIECE BY PIECE

(International News Service)
PORTLAND, Ore., Jan. 19.—Police here are looking for the ambitious thief who stole the house of Mrs. James Harvey, St. Paul, Minn., and removed it piece by piece to parts unknown.

The house, vacant for approximately ten years, was located in a populous Portland residential section. Its whereabouts became a mystery after Mrs. Harvey wrote to police and asked them to report its condition. They failed to find it and inquiry revealed it had been torn down months ago by a man who was a stranger in the community.

No More Piles

You Can End Your Awful Misery Quick Without Cutting or Salves

Thousands of Pile sufferers do not know that the cause of Piles is internal—bad circulation of blood in the lower bowel.

This is the scientific truth about Piles—the real reason why salves and suppositories do not give permanent relief, why cutting does not remove the cause.

Your itching, bleeding or protruding Piles will only go when you actually remove the cause—and not one minute before. External treatments can't do this—an internal medicine should be used. HEM-ROID, the prescription of Dr. J. S. Leonhardt, sold by good druggists everywhere, succeeds because it stimulates the circulation, drives out congested blood, heals and restores the almost dead parts.

So why waste time on external remedies or worry about an operation when Eckersley's Cut Rate and New Castle Drug Co. invite every Pile sufferer to try HEM-ROID with guarantee of money-back if it does not cure and their files, no matter how stubborn the case?

M. H. ALEXANDER

Slowly but surely the ranks of the Civil War Veterans are dwindling to nothing; Saturday, February 17 at 2 p. m. Matthew H. Alexander, aged 92, answered the last call and joined his comrades who had gone before, when death took him after an illness of five months.

Some time in September, Mr. Alexander fell in the yard of his home, and the injuries he received at that time confined him to his bed, and his age did not permit the recovery of his health.

He was born in Ripley county, Indiana, June 26, 1841, the son of James and Eliza Covert Alexander, and had resided in New Castle the past sixty-nine years. Mr. Alexander was married twice; his first wife, who lived nine years after their marriage, was Maggie Roberts; his second wife, Ada Blaine Alexander, to whom he was married forty-eight years, survives. He was a member of the First Methodist church.

Mr. Alexander served with Company D, 123rd regiment of the Indiana Volunteer Infantry during the Civil war. He was with Sherman in his march to the sea and took part in Columbia, Franklin, Kingston and Burnt Hickory battles. He enlisted December 3, 1863 and was discharged August 25, 1865. He was wounded in the right shoulder and spent some time in Columbia hospital. He was a member of Post 100 A. R. and took an active part in all the affairs of the post until his health would not permit.

In addition to having a military record himself, Mr. Alexander also had four sons in the World war.

Surviving are his wife, and the following children: James I. S. Alexander, Wilmerding; Dr. John Alexander, Pittsburgh; Fred M. Alexander, Pittsburgh; Dr. Walter Alexander, Sharpsville; Mrs. Victor Patterson, Ridgeway; William Alexander, Mrs. E. M. Hughes, Mrs. C. F. Halmorth, Mrs. Herman Gibson and Lester Alexander, all of New Castle. A son, Frank Alexander, of Corpus Christi, preceded him in death. There are also twenty-nine grandchildren and nine great-grandchildren.

Funeral services will be held Tuesday, February 20, at 2:30 p. m. from the home, 1409 Albert street, with Dr. Norris A. White officiating. Interment will be made in Greenwood cemetery.

flatly that he had never received a gift of stocks, stock options or warrants from the companies with which he has been associated. Pan American Airways, Transcontinental and Western Air and its predecessor, Transcontinental Air Transport. A previous denial of such reports, he said, was contained in his answer to a questionnaire from the black

senate committee investigating air mail contracts, mailed over a month ago. On January 10, letters introduced as evidence before the senate committee indicated that Col. Lindbergh had received a gift of 25,000 shares of Transcontinental Air Transport stock, valued at \$250,000.

In explanation of this, Col. Lindbergh stated that by the terms of his employment contract with the company, he had received in May of 1929, \$250,000 in cash and an option to purchase stock in the concern. All the cash, he said, he re-invested in the company's stock and his total profit from the sale of stock was \$195,633.75.

On Friday Leopold will take the oath of allegiance to the constitution and formally will succeed his father. Technically, in the meantime, Belgium will have no monarch.

Crown Prince Leopold, Duke of Brabant, and Crown Princess Astrid, formerly of Sweden, arrived in Brussels last night after a hurried trip from Aedelobon, Switzerland, where they had been skiing in the Alps.

The Crown Prince and Princess, after first visiting Queen Elizabeth, went to the death chamber in Laeken Palace. They knelt beside the bier in prayer before retiring for the night.

Principal members of royalty expected at Thursday's funeral were the Prince of Wales, Queen Wilhelmina of Holland, the Crown Prince of Sweden, Prince Nicholas of Rumania, President Albert Lebrun, of France, and Crown Prince Umberto of Italy.

CLASS HAS PARTY AT CALLAHAN HOME

Thirty guests enjoyed the hospitality of the Callahan home, Moody avenue, Saturday evening, when the members of the teachers' training class of the First Baptist church, taught by Mrs. S. J. Callahan, gathered to do honor to two of their members, Edith Cleveland and Ethel Weaver, who were celebrating their birthdays.

The home was most attractive with festoons of hearts to carry out the valentine idea, which was also furthered in the refreshments.

A radio guessing game contest was most amusing, with the various theme songs, sung by Mary Rankin, Margaret McCormick, Virginia Callahan, Pearl Walters, Sam Reese and James Callahan. At conclusion of this part of the program a knock was heard, and when the door opened there was a gypsy palm reader, whose foretellings afforded much laughter. She was Florence Jenkins, Virginia Harris, who has recently returned from Cambridge hospital training, Cambridge, Mass., was a special guest.

Refreshments were then served. The success of the evening's party was due to the efforts of Charlotte Barber, chairman of the social committee.

Lavish Expenditures Of U. S. Administration Assailed By Swick

By ARTHUR C. WIMER
Special Washington Correspondent,
New Castle News

WASHINGTON, D. C., Feb. 19.—Taking the floor of the house to discuss the revenue bill now under debate, Representative J. Howard Swick lashed out sharply at the extravagance of the Roosevelt administration.

Mr. Swick praised the ways and means committee for including in the tax measure levies on certain Asiatic oils. He said he had received letters from John A. McSparran, Pennsylvania secretary of agriculture, and the Pennsylvania state grange, "whose president, J. Audley Boak, is a resident of my district," applauding the imposts on the oils. He also thanked the ways and means committee for their attention "to the many petitions received from the small oil producers of my district urging the retention of the present age depletion on allowance clause in the bill which the committee has done."

Dr. Swick then turned his attention to the recovery program and said he proposed to introduce figures to show the taxpayers where the money from the revenue bill would go. He declared the average citizen feels lost when trying to analyze the complicated setup of the new administration and remarked with sarcasm, "If, as has been intimated by members of the so-called brain trust, much of the emergency structure set up to promote recovery is to be made a part of the permanent system of government, the public schools of the country will require an entirely new text on civics and history."

Not Carrying Out Economy.

Congressman Swick declared that what was familiarly known as the new deal is now referred to by proud Jeffersonian Democrats as the "Constitution 6 Years, Trouble Now Gone."

John J. Davis had chronic constipation for six years. By using Adlerika he soon got rid of it and feels like a new person. Adlerika is quick acting—safe. Eckerd's, New Castle Drug Company. In Bessemer at Bessemer Drug Store.

"bloodless revolution," an apt synonym for bewilderment and confusion. He declared that in the last election the Democrats waved an economy plank before the overburdened taxpayers of the nation, "and pointing to the extravagances of the Republican administrations and shouting the battle cry—A balanced budget—stampeded a suffering electorate and won a decisive victory at the polls."

Dr. Swick then reviewed the various new governmental agencies set up by the Roosevelt administration. He declared:

"We have abolished 'useless commissions and offices' as pledged by the Democrats by setting up about 40 new ones and adding more than 40,000 employees to the pay rolls, all of whom managed to escape competitive civil service examinations."

"There is a balanced budget, but there is also an unbalanced budget—one that could not be balanced during the present fiscal year, even though we were to double and collect all prevailing taxes for the remainder of the year."

"We have economized by sweeping more than 12,000 employees from the classified civil service rolls, while more than 40,000 deserving men and women have been given employment through the means of patronage, all of them exempted from civil service regulation by presidential order or congressional action."

"We have solved our problems by setting up an alphabetical organization for each one until at the present time these combined agencies have a pay roll exceeding \$5,000,000 per month, all of which, of course, is charged to the unbalanced budget, the emergency budget."

Farley Is Attacked.

Congressman Swick charged that under Postmaster General Farley, who is also Chairman of the Democratic national committee, the administration had abandoned the "merit system" and inaugurated a new method for giving out jobs without regard for civil service regulations. He declared that in one breath Postmaster General Farley announced his intention of bringing all postmasters under civil service and in another acknowledged that since March, 640 appointive postmasters had been removed prior to expiration of their terms so that the jobs could be given to deserving Democrats.

Dr. Swick reported that the national debt had increased at a rate of \$6,079,000 per day in the first four months of the present fiscal year. Introducing budget figures, he declared that "it is very plain to any person of average intelligence that in 1933, on February 7 and 9, our expenditures exceeded our income at the average rate of \$13,853,991, while in the present fiscal year of 1934 for the same two days expenditures exceeded income at the average rate of \$28,434,885 per day."

Face Raw From Eczema

Is Quickly Healed By

San Cura Ointment

It matters not how old or persistent the case is—try San Cura Ointment. San Cura Ointment has not only relieved but often healed some of the most stubborn cases.

"My face was as raw as a piece of beefsteak from Eczema and in a short time it was healed. I used nothing but San Cura Ointment and Soap." Wm. Weagraff, 4200 Huntington Drive, Los Angeles, Cal.

"I had a rash similar to Eczema which was terribly uncomfortable and annoying. After several months of doctoring with medicine and quartz lamp treatments which gave no relief, I used San Cura Ointment and in a couple of weeks the rash all cleared up. My baby had Eczema on his face and San Cura Ointment cleared it up as nothing else had done." Mrs. H. W. Davis, 1517 E. 65th St., Chicago, Ill.

The healing powers of San Cura Ointment are often remarkable. It gives relief, and is guaranteed to help relieve itching or protruding piles, burns, scalds, chapped hands and chilblains, or money refunded on the first jar if it fails to give satisfaction. All druggists. 35c, 60c and \$1.25.

So far the county commissioners have not received from the Public Works Administration the contract which they are expected to sign to secure funds with which to build a new court house. The last heard of the project was a letter from Administrator Harold Ickes in which he outlined the new policy adopted by the administration with reference to the repayment of the loan. This was radically different from that which was understood when the application for the grant was made. Just what will be embodied in the contract which the commissioners will be asked to sign will not be known until it is received.

The Croton Avenue viaduct proposition is not on quite as far as the court house, as it will be necessary for the matter to be laid before the next grand jury. This cannot be done until the March term of court. It was announced not long ago that no more applications for funds will be considered by the administration, as there are enough projects now in to consume all of the allotted funds. As the viaduct application was made long before this announce-

ment, it is presumed, that it is among the projects for which funds will be granted, provided there is sufficient money to meet all of the applications.

Sheriff Edward D. Pritchard has an effective firearm in a new Colt automatic .45 calibre, which he has just acquired. The magazine of the gun holds seven cartridges. It is the very latest in automatics, and a very handsome weapon. The sheriff is a dead shot with almost any kind of a gun, and with his new automatic he will be able to plug a bull's eye at a greater distance.

Discussing murder cases a group of attorneys at the court house today recalled that the first man who was ever convicted of first degree murder in a Lawrence county court, was Frank Jongrass, who was tried for shooting a girl at Hillsville. Records show that he was convicted December 18, 1896. The first sentence of death was pronounced upon Jongrass by the late Judge William D. Wallace in the following February, and Jongrass was later hanged.

It is hard to keep from being a materialist when your degree of freedom depends on your material.

During the term of common pleas court which has just closed, seven verdicts were returned in favor of plaintiffs in cases. One case was non-suited, and in at least two cases verdicts were returned in favor of the defendants. These were both automobile cases in which the plaintiffs sued for damages as a result of accidents. No large verdicts in automobile accident cases have recently been returned.

It appears to be getting increasingly hard to secure verdicts in this type of cases. Nearly all the jurors who are called drive automobiles and appear to be getting more critical of testimony. It is no longer taken for granted that a driver who strikes a person who is crossing a street or highway is all to blame. Jurors want to know if the pedestrian has exercised the precaution that the driver is presumed to have exercised. In cases of collisions between two machines it must be clearly proven who was at fault to secure a verdict. More actions in trespass, growing out of automobile accidents are filed than in any other class of cases. Whether Prohibition repeal will have a tendency to increase them remains to be seen.

So far the county commissioners have not received from the Public Works Administration the contract which they are expected to sign to secure funds with which to build a new court house. The last heard of the project was a letter from Administrator Harold Ickes in which he outlined the new policy adopted by the administration with reference to the repayment of the loan. This was radically different from that which was understood when the application for the grant was made. Just what will be embodied in the contract which the commissioners will be asked to sign will not be known until it is received.

The Croton Avenue viaduct proposition is not on quite as far as the court house, as it will be necessary for the matter to be laid before the next grand jury. This cannot be done until the March term of court. ...one reason
why Luckies taste
better, smoother

In Turkey too, only the finest tobaccos are selected for Lucky Strike—the mildest leaves, the most delicate, the most aromatic. Lucky Strike is the world's largest user of fine Turkish tobaccos. Then these tender, delicate Turkish leaves are blended with choice tobaccos from our own Southland—to make your Lucky Strike a cigarette that is fully packed—so round, so firm—free from loose ends. That's why Luckies taste better, smoother. "It's toasted"—for throat protection—for finer taste.

On Court House Hill

Although the county commissioners have set the 1934 tax millage at nine mills, it will not be possible for taxpayers to pay their taxes at the office of County Treasurer Pitts until around the first of April. Before the duplicates are placed in the county treasurer's hands employees in the county commissioners' office must compute the amount of tax due on each individual property in the county. For instance if John Doe is assessed at \$5000 in the second ward, the tax on his property, both county and poor must be computed, the former at the rate of six mills and the latter at the rate of three mills. This must be set forth in the duplicates which are sent to the county treasurer's office, so that the treasurer may see at a glance just how much tax is due on the property. Each ward in the city, boroughs and townships, must all be figured up before the books are turned over to the treasurer. This means that the force in the county commissioners' office will have plenty to do during the next few weeks.

Sheriff Edward D. Pritchard has an effective firearm in a new Colt automatic .45 calibre, which he has just acquired. The magazine of the gun holds seven cartridges. It is the very latest in automatics, and a very handsome weapon. The sheriff is a dead shot with almost any kind of a gun, and with his new automatic he will be able to plug a bull's eye at a greater distance.

Discussing murder cases a group of attorneys at the court house today recalled that the first man who was ever convicted of first degree murder in a Lawrence county court, was Frank Jongrass, who was tried for shooting a girl at Hillsville. Records show that he was convicted December 18, 1896. The first sentence of death was pronounced upon Jongrass by the late Judge William D. Wallace in the following February, and Jongrass was later hanged.

Wants Damages For Death Of Husband

Mrs. Frances Williams Filed
Suit For \$20,000 Against
Youngstown Man

Mrs. Frances O. Williams of Springfield township, Mercer county, has filed a suit at the prothonotary's office against C. W. Hoover, 3920 Howard street, Youngstown, O., in which she asks \$20,000 damages for the death of her husband, Ralph L. Williams, who was killed on the New Castle-New Bedford road on September 4, 1933.

Mr. and Mrs. Williams had stopped near a service station in Puy-laski township. Mr. Williams started to go from the south side to the north side of the road. He was about the center of the highway when he was struck by the Hoover car.

It is claimed that the road was straight near the scene of the accident and a good view possible. Allegation is made that Hoover was driving at a high and dangerous rate of speed.

AROUND CITY HALL

And now that another automobile accident has occurred at the West Washington street bridge, Solicitor Robert White will dispatch Henry Dysart, inspector of the legal bureau, to gather the facts. They will be added to those concerning several other accidents. This data will be made known to the commissioners of Lawrence county when Mr. White, following instructions from city council, asks the commissioners what the county proposes to do in order to protect the city from possible lawsuits.

City detectives have not yet made any arrests in connection with the robbery of McFate & Lockhart Wholesale company which lost about \$550 worth of cigarettes of all kinds. However, it was learned that one of the wholesale houses in that section has employed a watchman. A roundsman in that district would help materially to lessen robberies. The wholesale district time and again has been "hit" by burglaries.

Several new members will be appointed to the commission which will have charge of the operation of Cascade park this season. The

present members are Major Guy Wadlinger, Frank Hill and Thomas Blake. Maurice Markley resigned some time ago. Two and possibly three new members will be added to the body. It is hoped to make Cascade park a mecca for children this summer. Rides now there will be permitted to remain.

Always at it—Neil Williams. At least this would be a good name for Mr. Williams. There is not one minute of the day that this city hall employee does not busy himself. His duties are varied. He makes most of the maps in city hall. It is a very tedious job. In addition he compiles tax schedules for the assessors department and attends to all permits for building, remodeling and excavations.

Police chronology for past 48 hours ending 3:30 p. m. February 18: 22 arrests, on charges as follows: drunkenness, 15; drunkenness and disorderly conduct, 7.

MEN'S MASS MEETING MAKES PROTEST ON INDECENT SHOWS

(Continued From Page One)

ject "Some Present Perils to Morality in Our Social Life." He argued that while indecent shows were wrong and that they should be suppressed, that the outstanding reason why there were such things was because there were people who would attend them. He scored contemporary literature for its smut and lasciviousness and scored the recent session of the Pennsylvania General Assembly for opening up the Sabbath. "Not even Boies Penrose would permit this when he was a power," said Rev. Winger.

Attorney Charles R. Davis was the lay speaker on the program. His subject, "The Inevitable Harvest From the Seeds of Immorality in Our Social Life." He included the radio in the list of corrupting influences of modern life and scored crooners who put over salacious songs. "The forgotten man today is Jesus Christ," said Mr. Davis.

Dr. Walter E. McClure, pastor of the First Presbyterian church, was the last speaker. He said that he understood there were a dozen or 20 men of the city who were responsible for making the contacts with lewd dancers and brought them to New Castle. "Preachers are not moral policemen," said he. "The job of apprehending these people is one for the officers of the city and county."

He produced a salacious magazine which he had found on a news stand and said that he was turning it over to the city officers. Later he turned it over to Mayor Mayne who said that he would take care of the situation.

Pass Resolutions
Dr. McClure then presented a set of resolutions which are found at the bottom of this article. They were passed without a dissenting voice. Just before the close of the meeting William H. Butler arose in the gallery and asked that the elected officers of the city and county who were present be asked their stand in the matters that had been discussed. Judge R. L. Hildebrand, chairman of the meeting said that this had not been included in the program and the officers would not be called. Later Butler again repeated his request and Judge Hildebrand again ruled that inasmuch as the officers would not be called he said that if they cared to speak the chair would recognize them.

Mr. Butler then rose and said he saw District Attorney Alley in the crowd and felt he would want to say

something. Mr. Alley rose in his place and said he knew his oath of office and that he expected to live up to it. A number of officers were in the audience, among them Mayor Mayne, District Attorney Alley, Chief of Police Haven and Councilman Alexander.

The meeting was opened with a short organ recital by Thomas H. Webber following by a song service directed by John W. Owens. Prayer was offered by Rev. S. E. Irvine, pastor of the First United Presbyterian church and the benediction by Rev. Norris A. White of the First Methodist church. The resolutions which were passed, follow. They are signed by two members of the law and order committee of the Ministerial Association. Two others, Dr. J. A. Galbreath and Rev. A. M. Stump were unable to sign them but are members of the committee.

The resolutions passed are as follows:

Resolutions
Believing that "Righteousness exalteth a nation, while sin is a reproach to any people," and believing that immoral forms of entertainment are being sponsored more and more both in our country and community:

We, men of Lawrence County, Pennsylvania, assembled in the First Presbyterian church of New Castle, on this the 18th day of February, 1934, desire to go on record as follows:

Be it resolved:

1. We look with shame, indignation and alarm upon the indecent and immoral forms of entertainment that are reported to be common in our community.

2. We recognize our County, City, and School officials to be for the most part men of honor, integrity, and Christian Faith. For this we thank God and take courage.

3. We pledge our loyal support to those who have been elected to office, and look to them for vigorous enforcement of high moral standards.

4. We pledge our loyal support as Christian men to the Church of Christ, and promise to do all within our power to win others to Christ as disciples.

5. We desire that this meeting and these resolutions be given wide publicity, that all may know there are still many in this community who do not look with favor upon indecent and immoral forms of entertainment.

Signed,
W. E. MCCLURE,
C. H. HEATON,
Law and Order Committee of the
New Castle Ministerial Association.

Officer Wounded In Philadelphia Result Of Raid

Raid On Alleged "Racket Club" Ends In Shooting Of Plainclothes Policeman

YOUNG SUSPECT IS IDENTIFIED

(International News Service)

PHILADELPHIA, Feb. 19.—A plainclothes policeman, shot down from ambush, today lay near death, the first victim of the police drive on speakeasies operating with fraudulent "club charters".

He is Harry Donahue, 40. He was shot in the stomach, chest and arm while spying on the Braidwood Social Club, classified by police as one of the most notorious dives in the city.

Within 15 minutes of the shooting last night a police dragnet caught a suspect, Joe Danni, 25, described by police as an ex-convict with a long record. At his bedside the wounded detective early today identified Danni as his assailant.

Meanwhile the club was raided and the proprietor, George March, also a police character, was arrested. March is still under bail as a result of a shooting outside the place five weeks ago.

Hoover Anxious To Start Fishing Season On Coast

Ex-President Enjoys Fishing, Has Forgotten Politics And State Affairs

The ex-President's ears now seemed attuned only to the distant signs of spring in the fishing country. "Mr. Hoover," one of his closest associates told International News Service, "has forgotten politics and the affairs of state and seems interested only in the coming of spring and the fishing season."

About forty applicants are taking their preliminary examination for naturalization papers, before Michael Buschek of the Pittsburgh department, at the court house this morning. DROPPED A HOT COFFEE POT BECAUSE PAINS WERE SO BAD

New Castle lady says cramps in arms, shoulders and limbs were awful. So dizzy at times had to grab something. Says Vendol has given astounding relief.

"I suffered such cramps in my right arm that when they struck me I would drop whatever I was holding, and one time I dropped a hot coffee pot," said Mrs. Viola Ippolito of 4 W. Lutton street, New Castle. She was telling her experience to the Vendol Man in New Castle Drug Company recently.

"I had cramps in my limbs, and pains in the back and left side of my head. When this pain came on I would get near the heat from the stove to get a little relief. During the night I would have to get out of bed and move about or sit in a chair on account of the pain, and sometimes I would be awake until four o'clock in the morning. When it became time to get up I would feel as tired as if I had done a hard day's work."

"My liver seemed to be sluggish and my bowels were constipated so that I often became dizzy. If I was out walking I'd have to grab something to keep me from falling and hold on until the dizzy spell passed."

"My stomach was giving me trouble and it seemed that everything I ate disagreed with me. Meat, fruit and potatoes bothered me most, and macaroni caused a gnawing in my stomach."

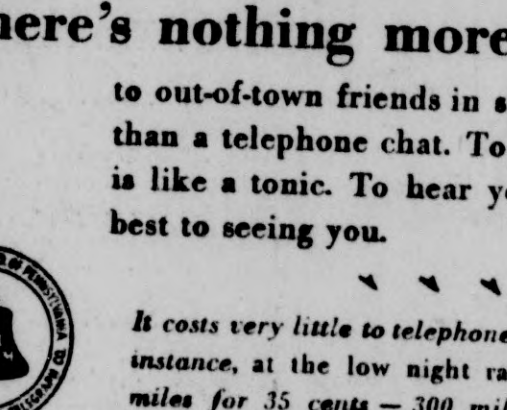

"I was attracted by the newspaper statements from people who described their condition the same as mine, so I decided to get a bottle of Vendol and give it a trial. It certainly has done me a lot of good. It has helped my stomach so much

that I can eat the very things that used to disagree with me, and I never feel upset, fill up with gas or have acid risings in my throat. My liver has been worked off nicely and my bowels act regularly every day. I get good sleep every night so that I can start the day off feeling fresh and rested. I haven't had an attack of cramps in my hands since taking Vendol, so after giving it a fair trial I call it the best medicine I ever took."

Make up your mind now to begin taking Vendol and put yourself on the road to better health. Come to New Castle Drug Company, 31 E. Washington Street, ask for me, the Vendol Man, and I'll explain all about my grand medicine that is helping so many people right here in town and tell you honestly what you may expect it to do for you; so come today if possible. Vendol is sold at the 24 North Mill Street Store also.

There's nothing more cheering to out-of-town friends in sickness or health than a telephone chat. To share your news is like a tonic. To hear your voice is next best to seeing you.

Local Champs Win Over McKeesport

Record Crowd Witnesses 33-29 Victory Of Finishing No. 1 At Shelby Saturday

COLD DRAW BEATS INSPECTION 23-20

ELLWOOD CITY, Feb. 19.—Finishing No. 1 champions of the first half in the Shelby inter-department basketball league again displayed their superiority over the Butts and shipping team of McKeesport in a return battle at the Shelby auditorium on Saturday night when they won a 33-29 victory.

The local champs played a fine brand of basketball to win the game. They took a 9-5 lead in the first quarter and then were never headed, although they were very far ahead. Finishing held a 21-16 lead at the half and 27-23 in the third quarter. Hale, the visiting center was a constant threat for the locals. He rained in field goals from all angles of the floor, scoring 15 points himself. Tom Barnes, Ursu, and Captain Justine gave a creditable accounting of themselves, scoring 10, 9, and 7 points respectively. Despite a desperate effort of the visitors for victory in the final period the local team were able to keep their lead and eventually the game.

In the first game of the evening the Cold Draw again surprised the league leading Inspection passers, by coming through in the last quarter to a 23-20 victory. The result leaves the two teams tied for first place in the second half.

Inspection set the pace for three quarters. They held a 4-2 edge in the first quarter, 10-4 at the half, and 16-14 in the third period. They were unable to hold their advantage in the closing minutes when their opponents scored 9 points to their 4. Lloyd and Peucel led the attack for the victors. Chambers and Boone were best for the losers.

Stock Market Is Dull Today

Opening Is Strong But Trading Falls Off Later In Day

By LESLIE GOULD International News Service Financial Writer

NEW YORK, Feb. 19.—The stock market turned reactionary today after a strong opening. Losses ran to a point and more but trading activity fell sharply on the decline and the list turned dull.

A factor responsible for some of the selling was the heavy tone in commodities. Wheat, cotton and most other staples were lower. Silver again bucked the trend and rose sharply to new highs for several years on persistent reports of early Washington action to raise the price of the metal.

The metals as a group made the best showing, and most of them went to new highs on the current advance following the new spurt in the industry's operations.

Rails, utilities and oils were easy on profit-taking. The power stocks were under pressure as the hearings on Governor Lehman's proposed laws were set to get under way at Albany in a few days.

Farm stocks were easier with grains and cotton. The metal stocks ran into profit-taking, which offset the further rise in silver. American Can ran into good news selling following the publication of its report showing a 50 per cent increase in earnings last year.

A flurry of buying came into the aviation shares around the noon hour and some gains were scored. The dollar was irregular, rising against the franc but falling more than 4 cents against the pound sterling. Bonds were steady.

Low-priced stocks were again prominent. Sevel and Yellow Truck and Coach were active ones today. The Studebaker issues also made frequent appearances on the tape.

Freeport Texas was an individual strong spot, hitting a new high for the year.

Stocks showed support on reactionary spots and the undertone remained firm, with rallying tendencies developing as the session wore on.

Selling in the rails ignored the new gain in car loadings last week.

For a severe headache, a towel wrung out of boiling water and applied to the back of the neck will give relief.

Harmony Here As Democrats Meet

Guffy Slate Is Endorsed At Meeting Here On Saturday Night

HEAR REPORT OF STATE CAUCUS

There were no signs of recent internecine battles in the ranks of the Democratic county committee Saturday night, Feb. 17, when the committee held an open meeting in the court house. Harmony prevailed, speakers were agreed that the Guffy slate of candidates should be endorsed, and preliminary steps were taken to double the size of the county committee, adding a woman to each precinct representation.

H. Phillips Stone, chairman of the county committee, presided and introduced Dr. John A. Mehan, acting state committeeman, who gave a report of the recent state caucus in Harrisburg. He said that the meeting was one of harmony and that no friction developed. After reading the report of the resolutions and the 20-point platform of the state committee, he urged the endorsement of the slate named at the Harrisburg meeting.

Resolution Passed
W. Grover Stevenson then presented a resolution endorsing the following candidates for state office: For United States senator, Joseph P. Guffy; for governor, George H. Earle; for lieutenant governor, Thomas Kennedy; for secretary of internal affairs, Thomas Logue, and for judge of the superior court, Chester H. Rhodes. The resolution was passed unanimously.

Mrs. William J. Howley reported on the meeting of the Young Dem-

ocrats and urged more support for the movement in Lawrence county. Judge R. L. Hildebrand lauded the "matchless leadership" of President Roosevelt and said that the day seemed to have arrived when being a Democratic candidate meant a chance to win. Jury Commissioner B. Frank Thorn and Register and Recorder William R. Hanna spoke briefly, as did Assemblyman W. J. Eroe. Attorney C. H. Akens and Thomas Martin. Attorney C. A. Patterson compared the government to a two-motored machine, with the Democratic motor now running. Judge Hildebrand and Attorneys Akens, Wilkinson and Patterson were named on a committee to draft a resolution changing the county committee rules to permit two members to serve in each precinct. Another meeting of the county committee will be held March 3.

WHO WILL ANSWER

Editor News:—Is the tomb of the Unknown Soldier merely a monument in memory of those who were killed in France, or does the tomb actually hold the body of an unknown soldier?

Now that may be a silly question, but who knows the answer? I don't. Neither do my friends. The friends, of course, argued that there must be the body of a hero in the tomb. Others stated emphatically that it was not so; that the tomb was merely a monument dedicated to the heroes of the war.

Who knows the answer?

Theda Bara Selects Today's Screen Vamps

(International News Service)
EDITOR'S NOTE—Seeking to determine the outstanding present day screen "vampire" International News Service found Theda Bara in retirement and asked her the question, in the following interview, the queen of the vampires of more than ten years ago picks the 1934 "all-American" screen "vamps."

By WALLACE X. RAWLES
International News Service Staff Correspondent

HOLLYWOOD, Cal., Feb. 19.—Greta Garbo is the greatest vampire of the screen today.

This is the opinion of the "queen" vampire of the silent screen—Theda Bara.

And next in order is her opinion: Marlene Dietrich, Mae West, Katharine Hepburn, Jean Harlow, Joan Crawford, Dorothea Weick, Alice White.

Of course the present day vamps have changed their ways since the

era when the beautiful dark eyed Theda Bara reigned supreme among silent film vampires.

The interviewer reminded Miss Bara that many movie fans believe that she not only was the "vampire supreme" of silent pictures, but of all time, as the coming of "talkies" had produced a distinctive change in the type of "vampires."

Flashing a gracious smile, Miss Bara then explained why she ranked Garbo and Dietrich above her other "modern vampires" selections.

"Garbo" she said "has a distinctive quality and she has that strange Nordic quality that many others lack."

"I admire Miss Dietrich and Miss Hepburn for their exotic qualities, and Miss Dietrich for her exquisite femininity."

"And Mae West, ah, there's a real vampire!" she has interesting qualities and she has had the courage to be herself."

Restoration Of Federal Pay Has Split Congress

Administration Leaders Are Ready To Yield Party Lash To Defeat Liberal Revolt

(International News Service)
WASHINGTON, Feb. 19.—Administration leaders were ready today to yield the party lash to defeat a liberal revolt in favor of restoring full pay to government employees.

The full pay drive was led by Senators McCarran (D) Nevada, Dickinson (R) Iowa and Copeland (D) New York. They refused to concede defeat but it appeared the administration had exerted sufficient influence to round up a majority of the senate in favor of President Roosevelt's plan for partial restoration.

The administration program called for restoration of one-third of the 15 percent cut as of Feb. 1, restoration of another third on July 1 and authorization of the final one-third whenever advisable to the president. The liberals favored the Feb. 1 restoration but demanded restoration of full pay on July 1. They argued the government should set an example now to business to restore former pay scales. The fight revolved around amendments to the independent offices appropriation bill. The Senate faces a second battle over restoring more liberal treatment to disabled war veterans. The president already has announced a \$21,000,000 relaxation in the economy program toward veterans and he has agreed to liberalization of the economy act's harsh treatment of presumptive cases.
